A Communist Youth Group

COMMUNISM In the United States many people own their own homes, farms, and businesses. Everyone is free to choose the kind of work he wants to do. In communist countries, things are quite different. Under communism, the state owns all the land and runs all the businesses. The goal is for no one to be rich and no one poor. All are supposed to work and share equally.

The term "communism" has been used for only a little more than 100 years. It came into use after *The Communist Manifesto* was written by Karl Marx and Friedrich Engels of Germany. The first country to be ruled by a communist government is the Soviet Union. Under the leadership of Nikolai Lenin and others, communists took control of the country by force in the Bolshevik (BOL she vik) Revolution of 1917.

To some people, communism sounds like a pleasant way of living. The Soviet Union and Communist China have certainly made great advances in science and industry. But life has not been very pleasant in any country where communism has been tried. Communist rulers have enforced their rule harshly. The people have had very little freedom. They have been told not only what work they must do, but also what they should think, study, and believe.

People who believe in communism are often called "reds," because red is the main color in the communist flag. Because of the lack of freedom in communist countries "communist" and "red" are dreaded words to many. (See SOCIALISM; UNION OF SOVIET SOCIALIST REPUBLICS.)

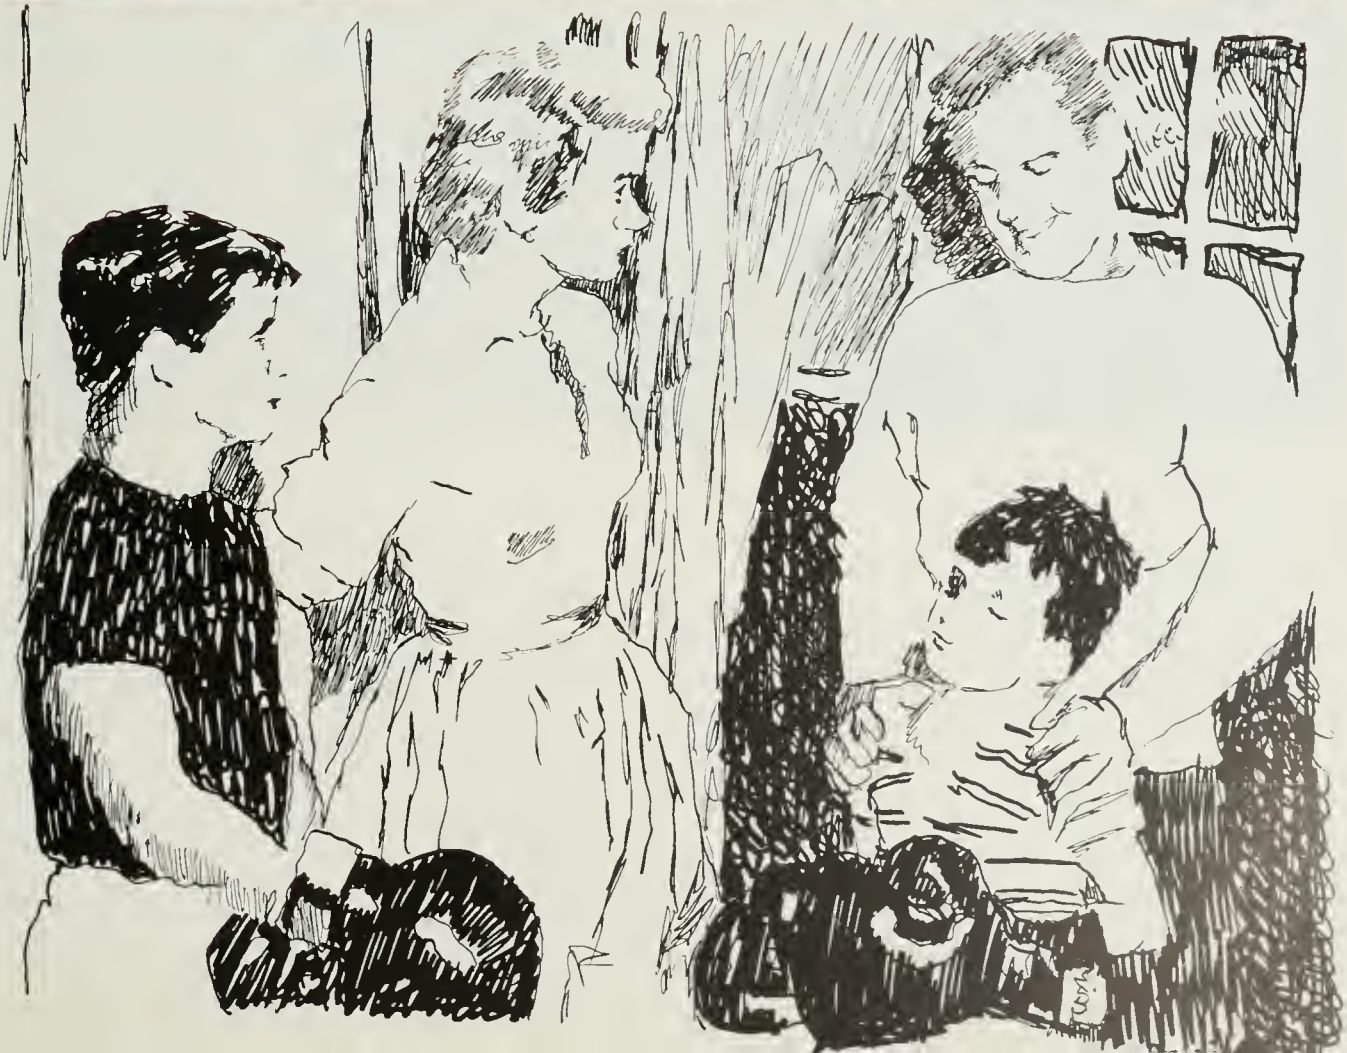
WE ARE GOOD CITIZENS

A good citizen is one who obeys the laws. We are good citizens when we follow the rules at home and obey our mother and our father.

We are good citizens when we obey the laws of our city and country and obey the policeman. Our mothers and fathers must obey the laws, too.

THE PEOPLE HAVE HAD VERY LITTLE FREEDOM. THEY HAVE BEEN TOLD NOT ONLY WHAT WORK THEY MUST DO, BUT ALSO WHAT THEY SHOULD THINK, STUDY, AND BELIEVE.

SPACE



"BROTHER! She sure let me have it! And all because I tried for one little kiss on a night that was made for kissing.

"I figured that on such a night a gal should feel romantic about the man she is practically engaged to.

"But a guy can be wrong. How wrong* she told me in no uncertain terms.

"Naturally, I did *something* about it. So, when next Saturday rolled around, we both saw stars . . . the big, romantic kind."

"GIVE GOO THE GO-BY!"

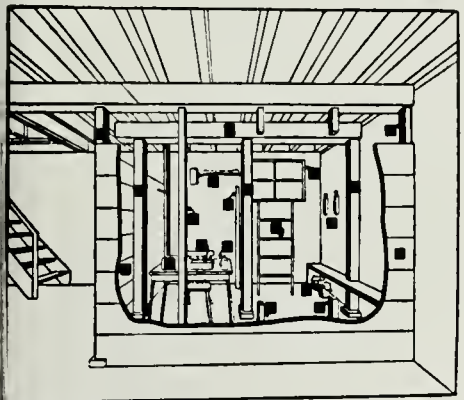
Why is it that you Know exactly where you were, who told you, and what you did right after you heard that John Kennedy was killed?

"Something appears to be terribly wrong . . ."
Live radio description from Dallas.

Games have rules. These rules help boys and girls to be fair and learn to take turns. The rules make the game more fun for everyone. In school, children who do not follow the rules will not be asked to play the game.

City's Proposal for Air Raid Shelter in Private Homes



The air raid shelter recommended for cellars of one and two-family dwellings by the Bomb Shelter Committee of the New York City Civil Defense Organization.

Key to above diagram:

(1) 6"x8" or larger girder placed into present floor beams to rest upon.

(2) 6"x6" wood posts or 6" diameter pipe columns, under girder two feet apart.

(3) 6"x6" wood post or 6" diameter pipe column under present girder

(4) Window for a second exit to outside. Should be covered on inside with heavy one-half inch mesh screening. A sandbag or heavy lumber enclosure in the form of a well to the top of the window should be placed outside of the window. The window should be fastened open at the air raid warning signal. The window should be at least 24 x24" in size

(5) Ladder to window

(6) Wood concrete or sandbag enclosure at least six feet high

(7) 2"x6" wood studs 24" apart for wood enclosure

(8) Fire extinguishers.

(9) Pails of water

(10) Battery operated radio.

(11) First-aid kit

(12) Battery lantern

(13) Axe

(14) Crowbar

The Bomb Shelter Committee said the shelter should be approximately eight feet by ten feet in size. The Committee said that a simply concrete enclosed room may be used as a shelter with the safety measures shown in the diagram.

If It Were Up to Me, I'd Give Every Policeman a Machine Gun, Says Roy Rogers

Roy Rogers, who played the "good guy" in more than 100 Westerns, thinks that in real life the "bad guys" are getting too many breaks.

"The police are hamstrung. We won't let them do their job anymore," the King of the Cowboys, now 59, said.

"If it were up to me," he told The ENQUIRER, "I'd give every policeman a machine gun.

"Our courts are clogged up with a big backlog of cases.

"Criminals are released as fast as they're arrested and the police aren't properly paid. No wonder everything's falling apart.

"And the courts? I lost all respect for them when they took prayer out of the schools," he added.

The growth in movie violence also troubled Roy. "Say what you like about our pictures (the many he made with his wife, Dale Evans), but right won over wrong, and we may have fought the bad guy but we didn't blow him up before your eyes or rip him open with a knife.

"Seeing stuff like that has to do something to a kid's mind," Roy said.

"I wouldn't let my horse, Trigger, see some of the movies that they've got out today," he said.

WINNING TEAM: Roy Rogers, his wife, Dale Evans, and his horse, Trigger, made many popular Westerns together.

They were told not only what work they must do but also what they should think, study, and believe.

"If ya stick around here ya gonna get busted"

Lenny Bruce was busted nine times in two years for "obscenity" and drugs. "What I want the people, my friends, to dig is the lie. Respectability means under the covers . . . I saw the whole thing was a mockery . . . there's no good-bad. People are made to measure up. Pleasure has become a dirty word . . . so when I pulled the covers off, the crime I committed, I didn't have anything to replace it."

Lenny Bruce didn't keep his mouth shut. He kept crying out that it was a lie and it didn't have to be that way at all. When it finally got to be too much for even his strength to battle, he split.

Choosing a Vocation

Long ago, man had little choice of the kind of work he wanted to do. His job was to provide food, shelter, and clothing for the support of his family.

Today we enjoy many things that require special skills to make and maintain. These skills require on-the-job training or education in a university, college, or trade school. It is well known that some men and women have more ability as craftsmen than others. People also differ in what they like to do.

A person is happier and more prosperous if he has chosen his vocation carefully. It is a wise policy to seek help from teachers, counselors, and other adults in making a suitable selection.

One will need to answer questions such as these:

- What vocations are there to consider?
- What are the duties and responsibilities of the workers in each vocation or occupation?
- Do I have the personal qualifications?
- What preparation or education is necessary?

What particular vocations have you considered? List them here:

_____

_____

_____

_____

Write about a vocation you have thought about. Use as many of the words in your lists as you can.

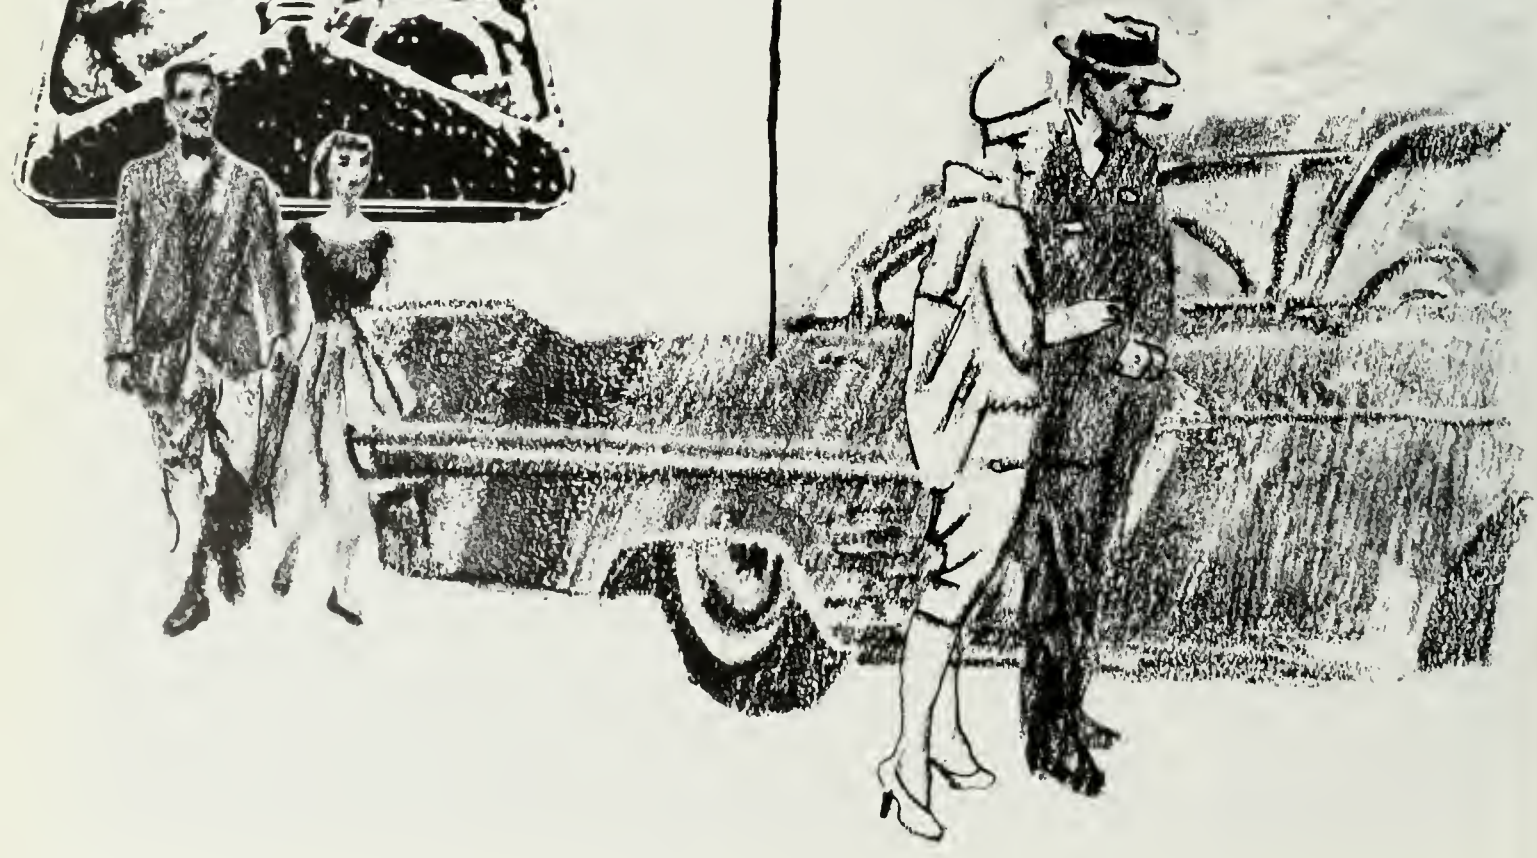
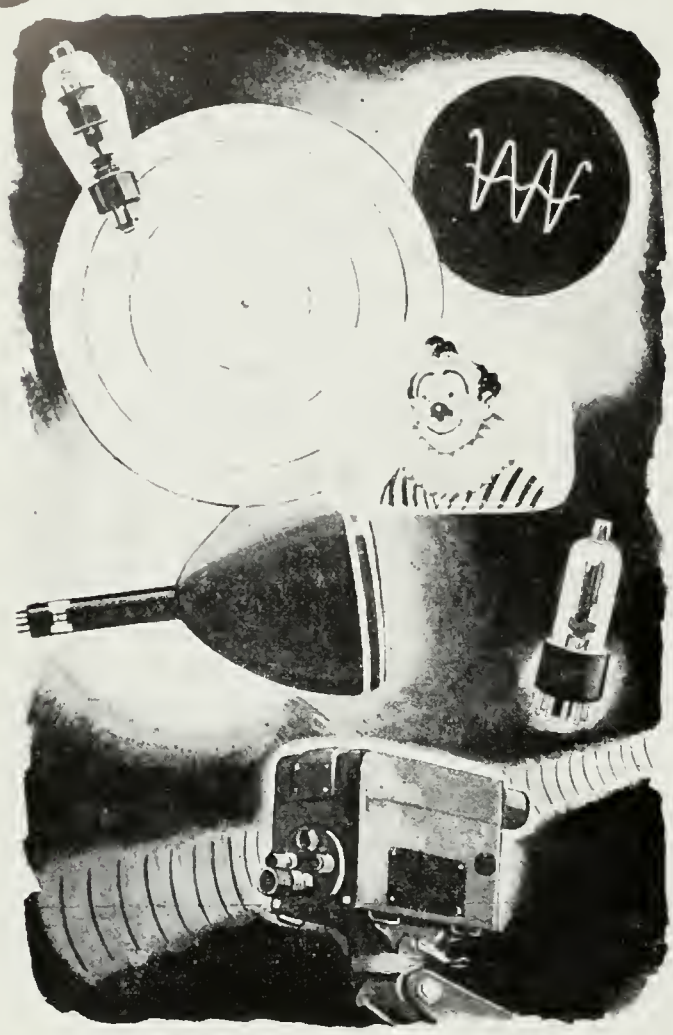
What are you going to be when you grow up?



"I won't grow up. I don't want to be a man." Peter Pan

UNIT 28



The Miracles of Electronics

For approximately 75 years, the knowledge of brilliant scientists like Edison, Fleming, and De Forest gradually brought about the electronic age. Have you approached an entrance where the door opens before you as if by magic? Have you eaten delicious, tender roast beef cooked in two minutes? Have you seen fruit sealed in a can and preserved for years without regular cooking? Electronics does it!

Silent electronic "brains," sensitive to thousands of color shades, work day and night sorting oranges by color. They open garage doors at the sound of the auto horn. They bring an image of an object in the dark to play upon a radar screen. They smell, kill germs, televise, and guard banks and industrial plants. In the laboratory of the scientists, electronics has been developed to perform such miracles.
